Website Audit Overview

This report presents a detailed analysis of the website's structure, performance, and SEO readiness.

We examined key on-page and technical factors that influence ranking, user experience, and visibility on search engines.

Our audit process focuses on:

- Basic SEO Elements: Titles, descriptions, headings, keywords, and metadata.
- Technical Health: Page speed, mobile responsiveness, redirects, and HTTPS setup.
- Content & Accessibility: Use of ALT tags, readability, and schema data.
- User Experience (UX): Navigation, layout consistency, and mobile usability.
- Performance & Security: Minification, HTTPS encryption, and crawlability.
- Search Visibility: Indexing status, canonical tags, sitemap presence, and social meta data.

Each section of this report highlights:

- What has passed validation.
- What needs improvement or adjustment.
- Specific recommendations to enhance performance, SEO ranking, and user trust.

The goal is to provide a clear roadmap to strengthen the site's foundation and ensure it performs effectively across search engines and user devices.
